Operational Update

On January 18, 2024, we began experiencing a power outage at our Ellendale datacenter hosting facility, resulting in a complete outage by January 19, 2024. This complete power outage is currently ongoing as our electricity provider is performing upgrades to ensure stability of our electrical supply. The financial impact of the outage was unknown at the time it occurred. Management has since been able to assess this matter and, as of February 6, 2024, has determined that revenues from this facility will be materially impacted by this outage for the quarter-ending February 29, 2024; however, management cannot be certain of the exact amount of that impact at this time. Management expects this facility to be online again during February 2024.

This Current Report on Form 8-K contains "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995 regarding, among other things, future operating and financial performance, product development, market position, business strategy and objectives. These statements use words, and variations of words, such as "continue," "build," "future," "increase," "drive," "believe," "look," "ahead," "confident," "deliver," "outlook," "expect," and "predict." Other examples of forward-looking statements may include, but are not limited to, (i) statements of Company plans and objectives, including our evolving business model, or estimates or predictions of actions by suppliers, (ii) statements of future economic performance, and (iii) statements of assumptions underlying other statements and statements about the Company or its business. You are cautioned not to rely on these forward-looking statements. These statements are based on current expectations of future events and thus are inherently subject to uncertainty. If underlying assumptions prove inaccurate or known or unknown risks or uncertainties materialize, actual results could vary materially from the Company's expectations and projections. These risks, uncertainties, and other factors include: decline in demand for our products and services; the volatility of the crypto asset industry; the inability to comply with developments and changes in regulation; cash flow and access to capital; and maintenance of third party relationships. Information in this release is as of the dates and time periods indicated herein, and the Company does not undertake to update any of the information contained in these materials, except as required by law.
